[IN-PERSON AND REMOTE] This is the official invite to support the Engineering Design 100 students at Penn State New Kensington as they present their final designs for the Climate Resilience and Adaptation Design Symposium! Solutions will focus on designing for climate-related problems in power generation, transmission, and distribution. You may attend in-person to enjoy a hot catered breakfast while you learn about climate resilience and adaptation with electric power systems, or you can join remotely and still interact over Zoom. The symposium will take place in the Art Gallery at Penn State New Kensington (3550 7th Street Rd, New Kensington, PA 15068) with presentations starting promptly at 9:05 am (you may come early to grab a bite to eat and your seat). The Zoom link is available through this invite as well.

Courtney Anne Cole is inviting you to a scheduled Zoom meeting.
