Hey Martin,
I hope you are doing well.
Thank you very much for the inspiration and words of wisdom. I loved reading through them and feeling the energy/understanding that flows through my body with each word motivating me to achieve my goals as well as live my life to the fullest. Hoping to continue our conversation over email/LinkedIn whatever works best for you (email: parekh.samarth@gmail.com), till then I bid you adieu

Hi Martin,
I hope you are doing well.
Apologies for the delay in writing back, have had a rough week due to family situations, but as we come to a close in our conversation on this platform, I look forward to starting a new one through email, and continuing to learn from each other as we both continue our journeys of growth and learning.
First off, congratulations on the certificate, truly an inspiration for dedication and commitment, and I hope to take that and apply it in my own work. Additionally, I am looking forward to your email to discuss courses and how I can advance my learning. I really appreciated the pointers and valuable quotes you provided. Additionally, thanks you for the reference of Danny Leonard, I sent him a him LinkedIn connect and am looking forward to learning from his content and resources.
Once again, thank you so so much for such an incredible semester, I have truly enjoyed our communications, and the amount I have learned has been so valuable that I can truly say I have grown as a person beyond the academic aspects, a crucial part of life I aim to continue to work on. Looking forward to hearing back from you and hearing of all the new things you have to teach!

Dear Martin,
Thank you for your continued support and valuable insights. I truly appreciate your proactive approach to sharing resources and guidance.
I will definitely explore the cybersecurity resources provided by Hack The Box and delve into the networking chapter you mentioned. It's always beneficial to enhance skills in these areas, especially considering their relevance in the current technological landscape.
I'm sorry to hear about the login credential issue, but I'm glad you were able to resolve it. I agree that maintaining connections beyond formal mentorship is crucial, and I'll make sure to stay in touch via LinkedIn and email.
The chapter from Ries and Trout's book on marketing positioning looks promising, and I'll make time to review it. Creating an online portfolio is also on my agenda, and I'll explore different platforms to find the best fit for showcasing my credentials.
Your pointers on various aspects such as handling questions, management principles, and software recommendations are invaluable. I'll keep them in mind as I navigate through my career journey.
This mentorship has ended! Because of this, the thread is no longer active and to restart the mentorship, you'll need to reach out to this user again.

Dear Martin
The youtube video you sent was very insightful. I found it extremely relevant to what I am seeing in the world today. I even looked into some of his other videos and will definetely make a point to check them out when I have more time on my hands.
I would like to set a zoom meeting with you to have more thorough discussions if that's okay. What date and time would work best for you?
Thanks,
Sarah.

You've just received a new connection request from Desirae. Desirae is reaching out with a message because of your shared experiences & willingness to help others on University Career Alumni Network (UCAN)
Desirae Krzeczkowski
University of Michigan - Ann Arbor
Class of '26
Desirae's Message:
Hello Martin,
Your profile was suggested by University Career Alumni Network (UCAN) as someone great to learn from. Would you be open to sharing your experience and professional journey with me?
To introduce myself, I am an aspiring engineer who is hoping to address issues at the intersection between humans and the environment. I am majoring in Environmental Engineering and Engineering Physics with a minor in Energy Science and Policy, and I am interested in international development, sustainability, physics, energy policy, and more.
I look forward to connecting with you soon!
Thank you,
Desirae

Kshitij's Message:
Hello Martin,
Your profile was suggested by University Career Alumni Network (UCAN) as someone great to learn from. Would you be open to sharing your experience and professional journey with me?
To introduce myself, I am pursuing a Masters in Data Science at the University of Michigan, Ann Arbor, where I am expanding my skills and knowledge in data analysis, machine learning, and statistics. I am passionate about applying data science to solve real-world problems, and I have completed multiple courses and certifications in R, Python, and other tools.
As a technology consultant at PwC, I worked with leading banks across India to develop and implement fraud detection algorithms using cloud computing. I contributed to delivering innovative solutions that enhanced the security and efficiency of the banking sector and received the Above and Beyond Individual Award for my performance.
I look forward to connecting with you soon!
Thank you,
Kshitij

further engage in meaningful conversations and share valuable insights.
Thank you for your time and consideration. I look forward to the prospect of connecting with you soon.
Best regards,
Sumukha C S
Hi Martin,
Thank you so much for the suggestions and happy to connect with you!
Currently I am Interning with Altair Engineering on Quality, automation side for there products. Some time in the next few days I will be emailing you through my umich.edua a and it will be so helpful if we can have Teams/zoom meeting.
Thanks for your time.

On behalf of the UC Davis Internship and Career Center and the College of Engineering, I am pleased to invite you to serve as an evaluator for the 2024 Engineering Design Showcase on June 6, 2024 from 1-4 p.m. at the UC Davis University Credit Union Center (formerly named "Pavilion"). This year's event will be hosted in-person.
All seniors in engineering majors work in teams to complete a capstone project in which they design and prototype a product, device, process, or software system. This event brings together project teams from all eight departments for an opportunity to share student designs with the public. Industry partners and alumni are invited to serve as evaluators, who provide expert feedback to student teams on their exhibits and project demonstrations.
We hope you can serve as an evaluator for this year's event and offer your feedback and insight to students. To serve as an evaluator, please fill out the volunteer form by Friday, May 17 here: Evaluator Volunteer Form.
Visit the college's event website with more information. We will follow up with more details as the showcase approaches.
Thank you for your important contributions to this event. If you have any questions, please contact me at eastorer@ucdavis.edu
Best,
Elizabeth

Hello Everybody!
My name is Vivian Vuong, I am the current instructor for ENG 003 at UC Davis. We are happy to announce that we will be continuing to host the ENG003 Introduction to Engineering Design Showcase!
The in-person 2024 Spring Quarter Showcase will be held in Kemper Hall on Thursday, June 13 from 10:30 a.m. - 12:30 p.m. There will not be a virtual option this year.
We are indebted to all who have participated in our past virtual and in-person showcases. This event provides an opportunity for our undergraduates to share their work with our university community and receive feedback on their prototypes.
If you are available and interested in serving as a guest evaluator, please complete our Evaluator Volunteer form. Technical experience is not necessary.
We look forward to seeing you!
Thank you!
The ENG 003 Instructional Team

hand!! Keep up the good work and have a great week! Martin
X-Antivirus: Avast (VPS 240226-2, 2/26/2024), Inbound message
X-Antivirus-Status: Clean
Hello Martin,
Hope your week is off to a great start. Are you available to talk virtually with students and alumni looking for career tips?
Your UMGC community needs your help at a virtual roundtable on Friday, March 15, 2024, between 1:00 - 2:00 pm EST to assist career-seeking alumni and students. This is part of the UMGC 2024 Virtual Career Fair with more than 75 participating employers.
At the virtual roundtable you would:
Meet up-and-coming individuals while expanding your network.
Share your knowledge and unique insights of your career path.
Strengthen your professional communication and leadership skills.
Exchange ideas and perspectives on issues in your field.
Motivate someone to pursue a new level of professional success.
Stay connected to UMGC in a meaningful way.
If you are available, please click here to register. If you have any questions, please do not hesitate to contact alumnirelations@umgc.edu or call (301) 985-7140.
All the best,
Nikki
