Your mentorship received 5 stars!

Hi Martin Balestie,

Bailey McClive gave your mentorship 5 stars! We're excited to hear that your guidance and support has made a positive and significant impact on the community.

We can't wait to see your continued support for students on University Career Alumni Network (UCAN)!

-->

Message Bailey McClive

About Resources

Mission

Our mission is to foster meaningful professional relationships between our current chemical engineering students and our alumni to prepare students for their future careers and to foster a sense of responsibility and excellence in future Michigan Chemical Engineers.

Program Overview

The Michigan Chemical Engineering mentoring program is envisioned to nurture the next generation of highly competent and socially responsible chemical engineers. The heart of the program is one-on-one mentoring of our chemical engineering students by our successful alumni. Michigan ChE students begin to understand the connection between academics and career outcomes by forming relationships with Michigan ChE alumni. Mentors share information about their own career paths and provide guidance, motivation, and emotional support. They help with setting goals and developing a network of contacts, while also providing students with role models in the professional world.
